The Extra-Judicial Corrections System?

Last updated: November 19, 2009

[More comic strips](#)

Does “an extra-judicial corrections system”, in which the system doesn't have to deal with messy things like “evidence” and “trials” or even “truth,” but can get straight to the “good stuff”: punishment, exist?

This site provides evidence that it does, and has for some time.

While targets of this “extra-judicial corrections system” do not have all the answers, we have enough information to show it is very likely. We can also show that programs of covert brutality have existed and have been exposed in the United States, at least, since World War II.

This near-perfect crime is called “organized stalking and electronic harassment”, or OS/EH for short.

(Because part of the electronic harassment includes equipment which is capable of influencing and attacking the brain and nervous system, some call the electronic portion “mind control”. Some call the entire OS/EH crime “mind control”, but there is much more to the crime than the “mind control” sub-category. Some feel that “electronic assault” is a better name for the electronic phase, with good reason.

Other names for the NON-electronic side of the crime are group stalking, vigilante stalking, or cause stalking.)

What you are going to read on this site may not seem real to members of the unaware public. There are several statistics, most from official professional sources, which support what we are asserting here about the organized (group) stalking side of the crime we call OS/EH:

A U.S. Department of Justice special report, January 2009, NCJ 224527, titled Stalking Victimization in the United States, which is available at this link (as of January 2009):

<http://www.ojp.usdoj.gov/bjs/pub/pdf/svus.pdf>

Click here if the above link is broken

... reported the following statistics showing the occurrence of multiple stalking cases within the total of all U.S. recorded stalking cases in the 2005-2006 time range:

"During a 12-month period an estimated 14 in every 1,000 persons age 18 or older were victims of stalking - About half (46%) of stalking victims experienced ...

* 11% of victims said they had been stalked for 5 years or more.

[Eleanor White commenting: "5 years or more" is very characteristic of organized stalking, which usually never stops because the justice systems refuse to acknowledge this crime.]

* An average of 10.6 percent of some 4.6 million stalking and harassment victims don't know the stalkers, since they're complete strangers.

[Eleanor White commenting: Almost all organized stalking is carried out by strangers, or people the target may know by sight but has never interacted with. The "4.6 million" figure above includes both stalking and harassment victims.]

* Appendix table 3. Number of stalking offenders perceived by victim:

One 62.1% Two 18.2% Three or more 13.1% Number unknown 6.5% Total Number of victims 3,398,630

[Eleanor White comment: Adding three or more to number unknown, gives 19.6%. That suggests ~666,000 U.S. stalking victims may be organized stalking targets.]

See also an affidavit from an attorney who pressed NCVS (U.S. National Center for Victims of Crime) for a statement of the size of their call volume relating to "gang" or "organized" or "group" stalking. The NCVS estimated thousands of such calls per year, and a volume of about 10% of all their calls.

The following statistic covers all reports to police relating to infractions of Canada's "Criminal Harassment" law, which covers stalking. The statement is from Statistics Canada, the federal agency which maintains statistics for all areas of Canadian life, including policing. The following statement was in response to Eleanor White's request for a checkoff item on Canada's Uniform Crime Reporting (UCR) system denoting harassment reports involving simultaneous multiple harassers (Chief, Policing Services Program responding): "Thank you for e-mail of Jan. 17. There is no need to add a new field to the national Uniform Crime Reporting (UCR) survey to collect information on multiple harassers, as a field already exists for the identification of multiple accused persons for all criminal incidents reported to police. As an example, of the 10,756 incidents of criminal harassment reported to police in 2006,

1,429 of these (or 13%) involved more than one accused.”

That is one criminal harassment report in eight, a very significant percentage. While not all of these would strictly fall under the organized stalking category, this rate of simultaneous multiple harassment reports at least hints that organized stalking may not be as rare as the general public seems to think.

A report on stalking posted by the American Journal of Psychiatry on their web site, journal reference 158:795-798, May 2001, states ... 6 out of 201 (3%) respondents reported multiple stalkers... Compare that with the 13% in criminal harassment cases above, reported by Statistics Canada, and clearly, stalking by multiple stalkers is a very real crime, acknowledged by mainstream professionals. Note carefully: There is such a thing as PROXY stalking, in which a single stalker, motivated by intense amorous or mental illness based focus on the target, enlists helpers. Organized stalking is not proxy stalking, but rather is stalking by a group totally independent of whomever originally submitted the target's name to the stalking group. The stalking group typically has no knowledge of why the target's name was submitted, and instead is given a lie, often that the target is a pedophile, to motivate the group stalking effort. The lie is repeated endlessly.

Article: “The Course and Nature of Stalking: A Victim Perspective” Authors: Sheridan, Davies, Boon
Source: Howard Journal of Criminal Justice, Volume 40, Number 3, August 2001 , pp. 215-234(20) In 5% of the cases (5/95), there was more than one stalker. pp.219

“In 5 cases perpetrators were part of a group..”, pp.219

“... [40%] of victims (38) said that friends and or family of their stalker had also been involved in their harassment... This is a surprising find as the popular view of a stalker is of a lone and secretive individual.” pp.222 [COMMENT: This suggests that the above “5%” cases may have been groups other than family or friends, which is suggestive of organized stalking as opposed to simple proxy stalking. Organized stalking involves groups which are networked everywhere, while proxy stalking has a single stalker who has a very personal focus on the target. Organized stalking groups also work on more than one target, unlike proxy stalking.]

Typical of organized stalking: “In 15% of cases, the victim could provide no possible reason for their harassment” pp.226

Statistics from the book Mobbing: Emotional Abuse in the American Workplace show that in Sweden, about 3.5% of the working population is subject to mobbing, which is organized stalking in the workplace. 3.5% of working people is roughly 1 person in a hundred total, and is in line with the organized stalking survey above.

Statistics from the U.S. Centers for Disease Control concerning harassment and stalking cases give an overall figure for the U.S. of 4.5 people per 100 as having been harassed or stalked at one time. Our informal survey's result of about one person per 100 being targeted by organized stalking fits well within that 4.5 per 100 figure. (Source, ABC News)

Statistics from the British (government) Home Office state that 1,900,000 people in the United Kingdom were victims of stalking or harassment at any one time as of the year 2001. That is about 3 people per hundred. Here again, the organized stalking survey's 1 person in a hundred is not out of line. Most interesting is that roughly 45% of the stalking victims are MEN! That suggests a very

different picture from the conventional view of stalking victims being mostly women, and may well point toward the type of stalking described here, on this web site. Click here for documentation. (Graph below shows all harassment offences, not specifically stalking.)

* Oh, and here's another British stalking statistic:

Home Office Research Study 210 (1998 data):

THE OFFENDERS

The majority (79%) of incidents involved only one perpetrator. [...] Strangers were responsible in 34 per cent of incidents.

Those statistics are strongly suggestive of organized stalking, 79% involved one perpetrator means 21% involved more than one perpetrator. And stalking by strangers is the usual situation with organized stalkers. Even if only 5% of stalking cases are organized, 5% of a million cases could mean 50,000 organized stalking cases in the United Kingdom alone.

For people who have trouble believing that stalkers can be as cunning and nasty as reports from organized stalking targets indicate, a psychiatrist, below, refers to one statistic indicating that as many as one stalker in just eight fits the observed personality of organized group stalkers: Excerpt from book STALKING, by Debra A. Pinals, MD, Group for the Advancement of Psychiatry, page 42:

CLINICAL ASPECTS OF STALKING

"Finally the fourth type of stalking in the Sheridan and Boon (2002) taxonomy, sadistic stalking, comprised 12.9% of their sample. This construct looked at the victim in particular, identifying the victim as someone worth "spoiling" (Sheridan & Boon, 2002), and as someone who would not understand why they were targeted.

"The target and stalker began as low-level acquaintances, but eventually the stalker's motive is to frighten or demoralize the victim. For example, the stalker might reorder or remove private papers, or leave notes inside the victim's car, leaving the victim with some evidence that the stalker has had contact with their personal property.

"As the behavior progresses, the stalkers attempt to take full control of the victims' lives. Their behavior may include implied threats (e.g. pictures of tombstones) and sexual communications that intimidate or humiliate but would avoid directly pointing to the perpetrator.

"There may be reprieves from the behavior, which may later resume after a hiatus. These types of stalkers may work hard to defy police."

Screen shot of the page from the original book.

A survey like this one on this site was posted on a high volume news site in 2002. 12,000 people visited that survey in 24 hours. About 120 sent in responses saying they had most or all of the symptoms of organized stalking. That is 1 person in a hundred, primarily in North America. (To be on the safe side, a rate of one organized stalking target per 1,000 people is probably better.)

One question which deserves to be asked of government and the media repeatedly is: Why are organized stalking and electronic harassment (OS/EH) not being acted or reported upon? A partial answer to that is that police make every effort to prevent reports of organized stalking and electronic harassment (OS/EH) from being officially recorded and manifesting in crime statistics. They

consistently use the “you are mentally ill” method, with its implied threat of being forced into the mental health system, as their main blocking tactic.

We do know that as dictatorships are in the forming stage, local neighbourhood surveillance and harassment groups are set up. That is amply recorded in history.

Once the dictatorship takes over, these local surveillance and harassment groups ensure that the dictator stays in power. This political motive seems to be the only likely answer to the question of why so many resources are expended to keep these harassment groups in operation and expanding.

Organized stalking and electronic harassment targets experience daily, harassment. Break-ins at home, work, and car. Thefts and sabotage just below a cost where police will act. Vicious, well organized rumour campaigns. Destruction of reputation, career, and relationships. Harassment of children, terrorizing of pets (while the target is out), injury and literal butchering of pets. Unusual medical symptoms for which doctors find no cause.

Well organized, very cleverly engineered 24/7 harassment by organized stalking groups, activities of which are ignored and denied by all levels of government. These organized citizen stalkers are networked, and moving to a different city does not stop the harassment.

Electronically induced sleep deprivation, and outright pain.

These crimes may have drawn from historical criminal operations such as MKULTRA, and COINTELPRO. The organized stalking side of these crimes seems to have taken advantage of the “law and order” and “community watch” mindset, morphing into the extreme criminal activity we see today.

The crimes documented here are a literal covert war on citizens. This covert war operates like a cross between citizen vigilante style “criminal rehabilitation groups” and “contract revenge services” for the well connected, particularly those who have connections to crime groups, such as the international organized pedophile rings.

“Prophetically, an acquaintance coolly said to me, a year after I left the lab, ‘You are in a police net you will never get out of ... for the rest of your life.’ ” – Leuren Moret, geoscientist, whistleblower, anti uranium munitions poisoning activist, target, formerly of Lawrence Livermore Lab

On very rare occasions, one of our members will find a revealing piece of information. One such revelation comes from a member who has a senior police officer as a personal friend. This police officer (on condition of anonymity) revealed that many police departments tacitly encourage the activity of these organized citizen groups because they help to "keep criminals in line."

The anonymous police officer said police recognize that innocent people will sometimes be targeted too, but some police departments consider that an acceptable price to pay for "crime control." One police officer admitted to a target that she had been targeted due to illnesses suggesting she was a methamphetamine addict. In fact, she was not, but had unknowingly moved into a house which had been used as a meth manufacturing lab.

See also the "police who know" log.

Important: Not all police officers participate in this harassment. In fact, it has been reported that some police officers are themselves targets. We in the organized stalking/electronic harassment target community do NOT disparage the majority of honest police officers!

You do not need to be "somebody special" to be targeted. Once vicious lies are spread in the target's community, the target becomes a high profile criminal in the minds of community members.

The citizen stalking group members often have no criminal records. This makes it difficult to prove their participation, as they appear to be "pillars of the community." And the fact that the harassment is split up among a large group of stalkers makes evidence gathering difficult.

Police usually deny that stalking by more than one stalker happens, and the medical establishment usually repeats this misconception. It is interesting that women's assault centers, for example, do understand that organized group stalking happens, but police and doctors don't.

Here in the 21st Century, these crimes are happening in the jurisdictions of all industrialized nations, and are world wide in scope. The evidence we have gathered to date is here for all who are willing to look at it.

A unique tactic used by the organized stalking perpetrators is that they carefully hide their operations by starting off with "minor annoyances" experienced by everyone. The difference is that these "minor annoyances" happen daily, often several times a day, as opposed to the normal rate of maybe one every few months. Many targets take a long time to come to realize this is deliberate harassment, instead of being the world's unluckiest people.

Eventually, the home break-ins where moving things around, stealing objects of small value and returning them later, leaving cigarette butts and pennies scattered here and there, sabotage at home, in the car, and on the job, and vicious rumour campaigns deliver the message that this is much more than "bad luck."

** Heard from the harassers themselves ** Observations, and even a few face to face conversations with some members of the organized harassment groups, reveals a pitiful picture where some of them started out being harassed themselves, and particularly, they had every job opportunity

trashed. This left the target with seemingly no choice but to join the perpetrators to receive minimal sustenance. This method of recruitment is being enhanced by shipping many jobs overseas as a result of moves to “globalize” the economy.

**** About References to “Government” **** I, Eleanor White, am NOT anti-government. Instead, I am opposed to CORRUPTION IN government. When government, the agency responsible for public protection and safety, IGNORES criminal activity, PROVIDES COVER FOR criminal activity, or actually carries out criminal activity, I oppose such actions. I am certain that the majority of honest government employees welcome efforts to expose and stop government corruption.

From the United States Air Force Scientific Advisory Board (SAB) report, “New World Vistas - 21st Century,” commissioned by the Secretary of the Air Force and co-signed by the Chief of Staff (94), concluded in 1996, on pages 50 and 51 of the Executive Summary that:

“...Novel enhancements in Human-Machine Interaction...be aggressively pursued. The ultimate interaction is Thought Control.”

Here are some techniques used by these criminals who oversee the organized stalking and electronic harassment:

Official “investigations” which don't ever seem to end, and with no defined purpose, and where the harassment target is unaware of the investigation Rumours of illegal and immoral behavior spread about the harassment target among neighbours, co-workers, and even some family members, pedophilia being a favourite “Street theater” and neighbor “skits” designed (very cleverly) to keep the harassment target uncomfortable and isolated for years; often, whenever target moves, new neighbors are moved in soon after (confirmed by investigator David Lawson. Sabotage of personal possessions and work at the target's home, place of employment, and locked automobile An anonymous letter from someone claiming to be a perpetrator in this covert program stated that he was recruited by being told he was participating in “criminal rehabilitation”, in spite of the fact that overwhelmingly, targets of this program do not have criminal records. (And a few cases of those who have, but have paid their debt and are no longer active as criminals.)

Once designated as a target, control is exercised, or at least attempted with some success, over these facets of the harassment target's life:

who your friends are, and in many cases whether you will have any friends at all how your relations

with family will go how your relationships with business associates go what sort of jobs you will be allowed to hold, regardless of your qualifications, and for how long, and what the quality of your work will be how your health will fare, and in many cases if you will even be allowed good health whether or not you will be able to enjoy any of life's pleasures whether or not you will have any privacy at all how well you will be treated in stores and other places of public service how well your possessions will work and how long they will work without breakdowns how much sleep you will be allowed how long you, your children, and your pets will have between occurrences of bodily pain, fatigue, sleep deprivation ** Main Menu ** Activism Tips | Alpha Index | Anti Pedophile Page | Arlene Tyner: Part 4 | Articles | "Brainchip" booklet | CATCH | Child Being Tortured | Comic strip | Contact | "Coping" booklet | Countermeasures | Credibility Rating System | Doctors who know | Effects-Image | Effects-Others' | Effects-Survey | Effects-Tabulated | Eleanor White's Hall of Heroes | E-weps/Iraq | Experiments | FFCCHS | Footnote for Fellow Christians | Glossary | Group Presentations | Organized Stalking booklet | How Police Can Help | How Public Can Help | Info Handling Tips | Message to the Perpetrators | "Mind Control's" Portion | MKULTRA: FOIA History | "Mobbing", the book | NIH Doc Says MC is REAL | On Line Victims' Memorial | Organized stalking | Organized stalkers? | OS Investigation Report | OS Videos | Other Sites | Outdoors Helps! | Perpetrator Groups | Perps Who Talk | Police CAN help | Police Who Know | Preparedness | Protest Posters | Road to Freedom (show) | Russian Research | Sabotage Photos | Satanic Connection? | Stop Covert War | Stalking Groups | Subject Index | Tech Talk Booklet | Thefts | Threats Received | Victims' Photo Album | Voice-to-Skull Success, 1975 | Weapons List | Top To remember this site address: "Raven, ONE, caught in a net" russ1.jpg Russian anti electronic harassment activists Photo above shows our colleagues, Russian anti electronic harassment activists, courtesy Cheryl Welsh

These are older, not secret technologies capable of extreme destruction of the ability to earn a living, and the quality of life of a target, listed below. None of these technologies require implants, and all can be transmitted silently, through walls, and leave no trace evidence.

Since few targets will acquire the correct detection equipment, destruction of a target's life even using these older technologies is a perfect crime under today's justice system. Today's justice system denies that any effective through wall harassment technologies exist, probably because they tacitly approve of the activities of the "anti crime" organized stalking groups.

To Our Harassers We are aware that many of you are carrying out these crimes based on lies that we targets are pedophiles or other serious criminals. That you operate from such motives is confirmed by private investigator David Lawson's 12-year investigation, quotes from which can be found here. You should know that if you are one who is participating in such activity for reasons of "criminal rehabilitation", you have been lied to by the higher echelons of a group that also uses extremely debilitating electronic mind/body weapons against us, around the clock.

These upper echelons are using you to commit very serious crimes against people who are innocent of any crime. You should give this some careful thought, particularly if you are religiously inclined. If not, you may still be setting yourselves up for some major prison time for carrying out the wishes of

the covert criminal element who got you started into this criminal activity.

And, please, ask yourself this:

Do you really expect to escape death? Do you really expect that choosing a career of torturing innocent people will have no consequences for you in the next life? Do you really think, after hearing reports from millions of people who have "died" and come back, that there is no "next life"? Do you really believe that those people who reported ending up in Hell during their near death experiences were all lunatics?

Theresa Schindler Memorial Web Site Terri's fight continues for others Theresa "Terri" Schindler tortured to death March 31, 2005, by judicial crime, by denial of water for 14 days, while "police" (Nazi thugs) arrested 47 heroes who tried to get Terri WATER in her hospice prison. This was a federal and state felony because Terri was NEVER in a coma, never vegetative, never had a terminal condition, and many doctors filed affidavits stating she was an eminently good candidate for rehabilitation, at age 41. The police enforcing this order KNEW that, and also knew they were enforcing an illegal order. (Other police officers repeatedly advised them of that.)

Politicians such as Florida governor Jeb Bush postured mightily, bemoaning Terri's torture but, while having the authority and DUTY to stop the crime, never did more than tinker with legislation as Terri lay cracking and bleeding from lack of water.

Even dying cancer patients get ice chips in their mouth to ease their suffering during dehydration, while Terri was denied ALL liquid. The criminals who tortured Terri to death only allowed her last rites Holy Communion ONE DROP OF WINE to make sure Terri dehydrated faster! God PUNISH the criminals in government who ordered Terri's torture!

SPECIAL thanks to Gordon Watts of Lakeland, Florida who came very close, losing an appeal vote by only one, 4-3, to saving Terri by his private citizen's petition to the Florida courts!

for my fellow Christians...

Our group has asked many Christian churches and groups for help in publicizing and exposing the continuing in-home and in-community plight of the targets of organized stalking and electronic harassment. Our group has been consistently ignored, and in some instances severely rebuffed by both clergy and laity, and in one case, we were threatened with legal action for a simple appeal for prayer.

MKULTRA-era history, COINTELPRO history (current-day electronic harassment's progenitors) and unclassified and commercial devices which can carry out this torture are firmly established facts. We are not asking for anything close to a "leap of faith", as we have ample factual material to convince most people of average open-mindedness who will take the time to learn the facts.

It is my prayer that there are a few true Christians out there who will at least PRAY for, if not publicly support, this cause, which can only be dear to the Heart of God.

(Pleasing God, also, would be prayers that Satan's grip on the perpetrators might be shaken loose.)

Eleanor White

(Please pray for the perpetrators)
